SCAL Academy Course

SCAL-SP Course on

Construction Project Planning and Scheduling

using

Microsoft Project 2013 (68th Intake)

Jointly organised by

&

INTRODUCTION

Contractors are responsible to translate clients' requirements and consultants' *2-dimensional drawings into 3-dimensional* physical realities. To achieve this, a contractor is required to **construct a project plan**, which details the prerequisites, costing, workflow, milestones and quality management. Work schedule or **timeline** is an integral component in all project planning and management. Easy-to-use project management softwares are now available to help contractors plan, control and evaluate their projects in a timely and cost-effective manner.

OBJECTIVE

This Course aims to provide participants with a thorough overview of the concepts of project planning and evaluation. Participants will learn how to *identify, organise, and control tasks and resources* required to complete a project under the constraints of time and cost. Emphasis will be placed on the intricate yet critical *relationship between cost schedules and technical performances*. **Upon completion of the Course, participants will be able to apply the tools available in Microsoft Project 2013 to help them make important decisions in project management.**

WHO SHOULD ATTEND

Project Managers, Engineers, Supervisors and Project Team Leaders who are involved in managing a construction project.

COURSE CONTENTS

<p>Introduction to Microsoft Project</p> <ul style="list-style-type: none"> ▪ Microsoft Project Environments ▪ Task Information, Duration & relationships ▪ Critical Path <p>Sub-Tasks and Project Details</p> <ul style="list-style-type: none"> ▪ Summary Information ▪ Project Statistics ▪ Overview Reports ▪ Sub-Tasks <p>Working with Calendars</p> <ul style="list-style-type: none"> ▪ Scheduling & Rescheduling the Project Calendar 	<p>Working with Resources</p> <ul style="list-style-type: none"> ▪ Resource Allocation ▪ Resource Levelling ▪ Over Allocation of Resources <p>Cost Information</p> <ul style="list-style-type: none"> ▪ Project Costing & Budgeting <p>Working with PERT Chart</p> <ul style="list-style-type: none"> ▪ Constructing a PERT-Chart ▪ Remodelling a PERT-Chart <p>Tracking Project Progress</p> <ul style="list-style-type: none"> ▪ Tracking Tool Bar ▪ Setting Baseline <p>Reports</p> <ul style="list-style-type: none"> ▪ Progress Reporting ▪ Reports by Report Type 	<p>Course Duration 18 hours 68th Intake: 27, 29 Nov, 1, 4, 6 and 8 Dec 2017 Time: 6.30pm – 9.30pm Venue: Singapore Polytechnic The School of the Built Environment (500 Dover Road, Singapore 139651)</p> <hr/> <p>Accreditation CET = 18 hours (APPROVED)</p> <hr/> <p>Course Fees : SCAL/SLOTS - \$588.50 (inclusive of GST) Non-Member - \$625.95 (inclusive of GST) Payment Type – Full Fee SDF Funding – S\$36 (to be confirmed) for SMEs <i>(eligibility criteria apply)</i></p> <hr/> <p>A Certificate of Attendance will be issued to students who complete the course.</p>
