SCAL Academy Seminar

The Practical Approach to Understanding, WICA, Project, and all other Insurance Policies including Claims, Procedures and Legal Issues

Organised by

18 December 2017 (Monday), 2.00pm to 5.00pm

Introduction

In the construction industry, engineering and construction projects, require a comprehensive insurance policy which will cover the liability, claims and procedures of reimbursement.

Without a proper understanding of the WICA, Project Insurance and other policies, many companies end up with claims, and issues which they were not aware of. If it is project insurance what does it cover, and including Project Insurance policies.

Course Objective

The objective of the seminar is to introduce participants to Insurance policies, and what are the key points to look out and also what are the main clauses to look at. If it is work injury policy what are the key term and what the clauses to look are. Does it cover the liability and if it does what are the key points of observation. If it is a Project insurance policy, what does it cover, and what are the clauses to look before buying and signing the policies.

There will also be a detailed legal discussion on legal issues on these policies including coverage and resolving these legal issues.

Further, the seminar will also cover the other types of insurance policy in the industry and what should be notes when buying an insurance policy.

Participants will be given practical discussions and exercise including question and answer session.

By the end of the talk, participants would have learned:

1. How does the WICA and Project insurance operate in the Construction Industry?
2. How to resolve claims, procedure and important tips
3. Key points in resolving legal issues, claims in Court and mediation process

Accreditation
 PDUs – 3 Units
 CET –3 Hours
 (Pending)
