*SCAL AcademyWorkshop*

## **Key Issues When Resolving, Negotiating and Settling Construction and Engineering**

**Accreditation: PDUs – 6 Units, CET – 6 Hours**

**Organised by**

**SCAL ACADEMY**

**11 December 2017 (Monday), 10.00am to 5.00pm**

### **OVERVIEW**

Settling disputes and finding solutions is very critical whenever a construction project is done. Many a times, parties do not realize how important it is to settle disputes and finding solutions. Many companies do not have the necessary focus and or the skill to find solutions for settlement and adjudication. The focus will be more on what ways can disputes be settled and what are the skills needed for this.

### **OBJECTIVE**

Participants would have developed the necessary skills and technique to settle construction disputes. Participants will be given many practical exercises and guidelines in how best to settle construction disputes. By the end of the course, participants would have a clear picture as to how to find a solution for the disputes in question. Many practical examples will be used and key points will be discussed. Project Representatives on Construction Projects, Project Managers, Contract Administrators, Architects, Engineers, Owners and supervisory and field management personnel.

### **COURSE OUTLINE**

- Types of breach of contract common in the construction industry?
- How construction and engineering contracts are adjudicated?
- Mediation in resolving construction contracts?
- Arbitration and the process of resolving construction disputes?
- The advantages of negotiating to resolve construction disputes?
- Key points when using out of box techniques to settle construction and engineering disputes?
- How to settle disputes in construction industry more amicably
- The legal effects of taking Professional Indemnity Insurance and performance bond insurance.
- Importance of negotiating disputes and what skills are critical.

### **Accreditation**
