SCAL Academy Workshop

Fire-Fighting Systems In Buildings

Accreditation: 5 CPD points (SCDF)

Organised by

**SCAL ACADEMY****3 May 2018 (Thursday), 6.00pm to 10.00pm**

OVERVIEW

The Singapore Fire Code requires that buildings be designed with appropriate fire protection system. One of the key systems is the building's fire-fighting system. These fire-fighting systems are probably the last line of defence when other early detection and suppression system fail to control the fire in its incipient stage. When the in-house company emergency response team (CERT) is activated to provide intervention, these fire-fighting systems are crucial to be functioning to enable the response personnel, including the SCDF personnel, to carry out fire-fighting operation. This workshop will cover the various types of fire-fighting systems and their corresponding inspection, testing and maintenance requirements.

OBJECTIVE

Upon completion, you would be able to:

- ✓ Understand the Requirements for Fire Extinguishers, Fire Hose Reel, and Fire Riser Systems
- ✓ Plan and implement effective Maintenance Regime
- ✓ Plan and Establish an Effective Incident Support Plan

OUTLINE

- Water Supply & Fire Hydrant Systems
- Fire Extinguisher, Fire Hose Reel, Fire Rising Main Systems
- Systems' Design, Operations, and Maintenance Regime
- Using the Systems for Effective Incident Management

Accreditation**5 CPD points - SCDF
(APPROVED)****SDUs – 4 Units
PDU – 4 Units
CET – 4 Hours
(PENDING)**

WHO SHOULD ATTEND

- Senior managers and executives who have building/facility management responsibilities
- Fire Safety Managers and executives with emergency preparedness roles
